

THE WEB3 APP FOR A NEW CAREER INTERNET

REVOLUTIONIZING HR WITH WEB3 CAREER CREDENTIAL MANAGEMENT

What is Workers Badge?

A Web3 platform, patented and trademarked in Europe and the USA, designed for managing verifiable educational and professional credentials and other career-related data in NFT format.

It combines a patented method with blockchain technology, AI, and a user-friendly design to create a worker's career portfolio in a single W3C-compliant wallet.

Why is it Important?

Ensures secure, immutable, and transparent registration of skills and work experience using Open Badge 3.0 and DLTs.

Speeds up and simplifies HR processes, reducing time and costs by 80% in verifying candidates' real skills and experience, creating a trusted system between candidates and companies.

Guarantees career tracking and monitoring of employees.

HR PROBLEMS AND OUR APPROACH

HR Problems

- **Complex Verification**
Lengthy, costly verification processes with the risk of errors and third-party information.
- **Data Fragmentation**
Career records scattered across different systems and databases.
- **Lack of Trust**
Difficulty in confirming the authenticity of certifications or CVs.
- **Regulatory Pressure**
Compliance with laws and data protection regulations.

How Workers Badge Solves Them

- **Blockchain-Based Verification**
User credentials are securely stored and validated on **ALGORAND** public immutable ledgers, soon expanding to other DLTs.
- **Unified Credential Management**
All career records in one secure, easily shareable wallet.
- **Transparency & Security**
Real-time updates, data immutability, credentials confirmed by issuers, visible only to authorized users.
- **Regulatory Compliance**
Designed to meet EU standards (EIDAS, DATA ACT, etc.).

SIMPLIFY CREDENTIAL MANAGEMENT & IMPROVE HR EFFICIENCY

Features

- **Verifiable Credentials**

Stored as **NFTs on blockchain**, shareable via **Open Badge 3.0**.

Instantly verifiable with **timestamp** and clear issuer, holder, and instructor identification.

Smart Contracts & Automation

Automatic issuance of badges/rewards upon reaching specific milestones and achievements

Fast transactions (less than 4 seconds).

- **Privacy & Compliance**

Zero Knowledge Proof enables selective data sharing through **voluntary disclosure**.

Compliant with **GDPR, EIDAS, DATA ACT**, and other EU regulations.

- **Intuitive Interface & Automated Operations**

No deep blockchain knowledge required.

Easy to use for **HR staff, students, and employees**.

Benefits

- **Trust & Transparency**

Prevents **fraud**, speeds up **talent search & onboarding** decisions.

- **Time & Cost Savings**

Reduces **manual checks, bureaucracy, and verification errors**.

- **Enhanced Employer Branding**

Shows **innovative and reliable capabilities**.

- **Talent Mobility**

Workers own their data, making **career transitions and job market mobility** seamless.

JOIN THE WORKERS BADGE/BLOCKCHAIN CREDENTIALS REVOLUTION WITH THE WEB3 PARTNER PROGRAM

Who is it for?

- **Universities & Educational Institutions**
To provide transparent certifications and stay ahead in educational technology.
- **Companies & HR Departments**
To simplify talent acquisition and track skill development.
- **Employment Agencies**
To verify candidate profiles quickly and reliably.
- **VETs**
To ensure transparent, trackable continuous training for client companies and report to Interprofessional Funds.

Program Benefits

- **Pre-Validation**
Test new features and provide feedback on product development.
- **Customization & Support**
Dedicated assistance for integrating Workers Badge into existing accountability processes.
- **Co-Marketing**
Increased brand visibility through shared case studies and events.
